What We Will Achieve

1.) **National Consciousness:** National Consciousness is the consciousness of our origin in this world, which is divine. As a nation of people we are the first in existence and all other peoples derived from us. National Consciousness is the awareness of the unique history and culture of Black people and the unequalled contributions we have made to world civilization, by being the fathers and mothers of civilization. National Consciousness is the awareness that we are all one people regardless to our geographical origins and that we must work and struggle as one if we are to liberate ourselves from the domination of outside forces and bring into existence a Universal Government of Love, Peace and Happiness for all the people of the planet.

2.) **Community Control:** Community Control of the educational, economic, political, media and health institutions in our community. Our demand for Community Control flows naturally out of our science of life, which teaches that we are the Supreme Being in person and the sole controllers of our own destiny; thus we must have the same control on the collective level that we strive to attain on the individual level. It is a prerequisite to our survival that we take control of the life-sustaining goods and services that every community needs in order to maintain and advance itself and advance civilization. Only when we have achieved complete Community Control will we be able to prove to the world the greatness and majesty of our Divine Culture, which is Mathematics.

3.) **Peace:** Peace is the absence of confusion (chaos) and the absence of confusion is Order. Law and Order is the very foundation upon which our Science of Life rest. Supreme Mathematics is the Law and Order of the Universe; this is the Science of Islam, which is Peace. Peace is Supreme Understanding between people for the benefit of the whole. We will achieve Peace, in ourselves, in our communities, in our nation and in the world. This is our ultimate goal.

Political Discourse and Activism

Peace, as a nation, it is essential to know and understand political discourse and activism. In this political atmosphere in which we exist today, if we don't know and understand the political position which we as a nation stand upon and build Allah World Manifest within, we will blindly begin to accept other's political positions just because it sounds good. On the surface is something that we may advocate for, whether it's coming from Democrats, Republicans or Independents, but beneath the surface lies their real agenda, which is totally contrary to what we teach and what we will achieve. We must never lose focus on the fact that those political parties and/ or positions were never meant to benefit or support black people or their agenda of freedom, justice, and equality. This is why we must know what the political discourse and activism of the NGE is. From what political position and spectrum do we stand upon and advocate, which supports and benefits the complete and overall common cause of us as a culture? What is our political perspective of freedom?

Everything in this system is politicized. The school system, the health system, the production of food, economics, jobs, etc... Everything is politically charged. Where do we stand as a nation within this political atmosphere? We must know the answer to this question to move forward as a viable nation/ culture in this society, and world. Our political discourse and activism must be grounded in what we will achieve: national consciousness, community control, and peace. If we build a political perspective upon these three principles, it will not matter which political party we interact with. Why? Because we will be thinking and advocating from a position of culture, freedom, justice, and equality. We will be empowered to say confidently what we can and cannot support, and not just accept those parties wholeheartedly. We will be able to see how they are for our benefit and how they are for our continued subjugation. We have to stop trying to put the round peg into the square hole. It will not fit. It will only continue to cause us more pain and misery. We are not Republicans. We are not Democrats and we are not Independents. We are the Nation of Gods and Earths, Allah's Five Percent. Our political party is Allah World Manifest. This is our political position...

If you go to Chinatown, Germantown, little Italy, little Havana, etc... Their national consciousness lets them know which political position to follow because it will benefit and support their community control as a whole. Just as with them, we must go to the table and state matter-of-fact what we want and not simply ask what are you offering. That is the position of a people with no political discourse or activism. If we become one within our national consciousness we will clearly see our political discourse and the activism which we must undertake to bring it into a tangible existence. We must not allow ourselves to become other people's pawns. Pawns are disposable pieces. We are the King, Queen, knights, bishops, and rooks. The game is ours to win or lose. At present, we are losing. Why? Because we don't know what our political discourse and activism is. Let us change this fact and become the sole controller, central sun, and earth of our own existence and direction. Peace.

National Consciousness Perspectives

Peace to the Nation! What is common among the whole Nation? Whether we identify as the Nation of Gods and Earths or Allah's 5% Nation of Gods and Earths, what are the characteristics of all of us who embrace our national consciousness?

We know who the original nation is and our origin in this world. We recognize that we are the fathers and mothers of civilization and the essence of the brown, red, and yellow people. We are aware that we have given everything to the world, from mapping out the universe, the planet, oceans, seas, hills, and mountains, to creations like the pyramids, from the mountain of the moon to the Mali Empire, Timbuktu, Sudan/Nubia, Kemet, Zulu nation, endless leaders... Hannibal, Stephen Biko, Winnie Mandela, Marcus Garvey, Noble Drew Ali, Elijah Muhammad, Father Allah, Fred Hampton, George Jackson, Maroon Shoatz, Understanding Self Allah, Larry Hoover, Jeff Fort...endless inventions from the cotton gin to the stop light, and many more.

All of the above was contributed by the original nation, black people. As a people, we need to resurrect our national consciousness to unify with purpose, with the will and drive to reclaim our land and people, all our people, because national consciousness is about keeping the duty of a civilized person, teaching what we have learned and added in our travels, a year to every mile, years with no beginning or ending in sight, civilization, righteousness, knowledge of self, the science of everything in life; love, peace, and happiness. Our knowledge and wisdom are for the world to learn and live by the brightest jewels of one conscious people, one conscious mind, one determined idea...national consciousness...Peace.

– Lahborn Eyeself God Allah

National consciousness is a state of mind where everyone who is part of a culture or nation has a common identity, which binds them together to accomplish a common goal. Whether that common goal is nation-building (Allah World Manifest) or financial building. National consciousness is what binds us together and allows us to move as one, no matter if we identify with the different modes of separation that they have us in, whether it be Jamaican, Haitian, Tanzanian, etc.... National consciousness is supposed to elevate us beyond those physical characteristics and differences that have been placed upon us to keep us divided from each other. When it comes to national consciousness each one of us knows that we are original people, and if we begin to live our lives as original people, no matter where we are in the world, we will always be alike, act alike, and cee alike and we're always trying to find common good to strive to accomplish something for the betterment of the whole. Look at the Europeans. They have so many different classifications which they define themselves as, German, Greek, French, Russian etc..., but they all recognize who and what they are; white people; white nationalists. They know where their privilege comes from and will join ranks to protect it. This is what we have to develop. A National Consciousness that unifies us across all lines and differences. Peace.

The Importance of Community Control: A Call for Empowerment

In the Nation of Gods and Earths, community control is fundamental to our culture and survival. It encompasses the complete governance of educational, economic, political, media, and health institutions within our communities. This control is not just a goal but a natural extension of our belief in the Supreme Being in person and our destiny's sole controllers.

Our philosophy teaches that individual self-mastery and collective community control are intertwined. Just as we strive for personal empowerment and control over our destinies, we must equally endeavor to exert control over the institutions that shape our collective lives. This is not merely a theoretical pursuit; it is a practical necessity for our community's survival and advancement.

Community control ensures that the life-sustaining goods and services essential for any society's maintenance and progress are in our hands. It allows us to tailor education to our cultural values, manage economic resources for communal benefit, shape political policies that reflect our interests, control media narratives that portray our reality, and oversee health institutions that cater to our specific needs.

For the Nation of Gods and Earths, achieving complete community control is about more than self-preservation. It is about demonstrating the greatness and majesty of our Divine Culture, which is mathematics. When we fully control our communities, we can show the world the strength, wisdom, and resilience that our culture embodies.

However, the significance of community control extends beyond our culture. It is a universal principle that can empower people everywhere. In an era where many communities feel disenfranchised and disconnected from the institutions that affect their lives, community control offers a path to reclaim autonomy and self-determination. It encourages a bottom-up approach to governance, where local voices and needs are prioritized over distant, detached authorities.

By advocating for community control, we call for a world where communities are not passive recipients of external decisions but active participants in shaping their futures. This empowerment fosters unity, resilience, and progress, essential for any community's health and well-being.

In conclusion, community control is not just a demand of the Nation of Gods and Earths but a universal imperative. It is about ensuring that communities everywhere have the power to shape their destinies, maintain their cultural integrity, and thrive in a world that often overlooks their needs. By embracing and advocating for community control, we take a decisive step towards a more just, equitable, and empowered society for all. Peace.

– Imani Culture-Freedom DeVyne Earth

Peace to the True & Living Gods & Earths. The 2nd goal of "What We will Achieve", is Community Control. Community Control incorporates the governance of our educational, economic, political, media, and health institutions within our community. This demand for control arises naturally from our understanding of life, which teaches that we are the Supreme Beings of our own destinies. To achieve meaningful progress, we must exert the same control collectively that we seek individually. Taking charge of essential goods and services is critical for the preservation of our culture and civilization. Only through complete Community Control can we demonstrate the greatness of our Divine Culture, embodied in Mathematics. However, this pursuit must be grounded in unity and mutual respect; it should not raise greed, hate, jealousy, or envy among us. To realize this vision, it's essential to cultivate a deep sense of national consciousness, ensuring that we remain focused on uplifting one another as we work toward our common goals. Peace.

Peace: Positive Perspectives

PEACE, A STATE OF CLARITY

Peace to the True and Living Gods & Earths! Our 3rd goal of "What We Will Achieve", is Peace. As we know peace is the absence of confusion. Peace represents the state of clarity, free from chaos, and embodies order. At its core, Law and Order form the foundation of our understanding of life. Supreme Mathematics symbolizes the universal principles that govern existence, reflecting the essence of Islam, which is peace. True peace emerges from deep mutual understanding among people, supporting the benefits for all. To realize this vision, we must first cultivate a sense of national consciousness. It is through our social relationships and connections that we can achieve national consciousness, community control, and, ultimately, peace within ourselves, our communities, our nation, and the world. Peace.

– Yaa Majesty Earth

PEACE: PERSEVERE TO THE GOAL

"People must be aware of their problems in a realistic way. They must be able to analyse their problems and to work out common solutions. In other words a community is easily divided when their perception of the same thing is different." – Steve Biko

Peace! To achieve our ultimate goal of peace, we must wholeheartedly embrace national consciousness and community control. Both are indispensable, as individual peace is insufficient. Collective and collaborative effort is imperative for working together for the common good and the betterment of our people. We can not tolerate any disruptions to the process of cultural empowerment and improvements; we must be willing to undertake uncomfortable house cleaning and alignment. Although this may take time, rest assured, it is entirely within our reach and has begun. Let's focus on our future and take the necessary steps to progress for the betterment of our families and communities. Peace.

– Queen I-Wisdom Understanding Earth

NATIONAL CONSCIOUSNESS PRECEDES UNITY

As True and Living Gods and Earths we possess the mathematical comprehension to born all that we need to sustain our survival and solve our own problems... The historical record is the best indicator of truth for we have more than enough examples... The conscious spark of independent nation-building has to be awakened, understood and practiced on a collective scale within our Nation... In order for us to take back control of our communities and be respected by other groups of people, we have to become as aggressive with our Nation/Institution building as we are with our material consumption and consumerism! We are naturally makers, owners, and producers... We have to reverse the menticide and return back to our natural way of life and thinking by being self-sufficient, controlling our communities, and reestablishing the true order of the universe, which will bring our state of equilibrium back to peace! Peace.

– Understanding God Allah

Understanding's Legal Corner

DID YOU KNOW?

After becoming the first African American to captain a vessel in the U.S. Navy, Smalls entered local politics and helped establish schools and social services for freedpeople in his hometown of Beaufort, South Carolina.

Robert Smalls and 259 other African Americans in 1868 helped draft the S.C. Constitution, which was the only S.C. Constitution ever voted on by the people of S.C. Most whites refused to vote for it, but it was ratified by S.C. voters. In 1868 the population of S.C. was roughly 300,000 whites and 400,000 blacks. This Constitution was replaced by the present S.C. Constitution of 1895, which was not submitted to the people of S.C. for a popular vote. The S.C. Constitution of 1895 is the work of Bill Tillman, one of S.C.'s most racist Governors. By 1892 Tillman finally had enough support in the legislature to authorize a referendum on whether to call a constitutional convention. The convention began on September 1, 1895 with an opening demand by Barnwell County Delegate Robert Aldrich that the S.C. Constitution on 1868 had to be repealed because it was drafted in part by negroes and was a stain on the reputation of S.C.". The S.C. Constitution of 1895 was never put to the people of S.C. for ratification by popular vote, under the justification that since the people voted them into office, they spoke for the people and ratified it on their behalf.

The legal knowledge manifested in this corner is for informational purposes only, and not for the purpose of providing legal advice and/or practicing the law. Be it known that it is illegal to practice law without a license in South Carolina. The legal knowledge that I manifest herein is from what I have gleaned from my studies of the law and reading legal books. I will share with you what I have read. Why? Because too many of us find ourselves caught up in the legal system, whether directly or indirectly, and too many of us are oblivious as to what is transpiring in this legal system. It is my intent to manifest herein, basic information on the legal system, your rights within it, and pull you out of the ignorance of the legal system, and hopefully enable you to share this information with others who don't know and may find themselves or a loved one, caught within the grips of the legal system. In any system in society, be it business, schools, sports, politics, etc., those who most find themselves at a disadvantage and/or manipulated in or by that system, are those individuals who do not know how that system works or the rules and regulations, written and unwritten, which governs the function of that system. I will endeavor herein to reveal this system and the rules and regulations which governs its function, as well as your rights within the judicial system. What constitutes an arrest, what is an arrest warrant, who can make an arrest, what must be done if you find yourself arrested, what are your rights if you get indicted for a crime, etc....And on the civil side, what are your civil rights, what do you do if an individual or the state violates your civil rights, what is a tort claim, etc.... Within this corner, I will manifest a basic knowledge of these topics. A more in-depth manifestation will be posted on the site. Again, I am not a practicing attorney, however I am a Certified Legal Assistant/Paralegal. I am not licensed to practice law. The legal knowledge that I manifest is solely for informational purposes. To share with you what I have read (learned). Let the learning begin. Peace!

By: Understanding Self Allah

BLACK AUGUST

...it should be clearly understood that Black August is a reflection and commemoration of history of those heroic partisans and leaders that realistically made it possible for us to survive and advance to our present level of liberation struggle, such as Nat Turner, Harriet Tubman, Gabriel Prosser, Frederick Douglas, W.E.B. DuBois, Marcus Garvey, Paul Robeson, Rosa Parks, M.L. King, Malcolm X, Father Allah and numerous others in our more contemporary period. It must be further clarified that when we speak of "Culture Development," we are not advocating Cultural Nationalism and/or merely talking about adopting African/Righteous names, jewelry, dashikis, etc. Our primary interest lies not only in where we came from, but the nature of "WHY" we were forcefully brought here, understanding the character of "CONTINUOUS" struggle with the recognition that it is a protracted struggle and developing the necessary lifestyles to guarantee its success. Black August is about all the people that's fighting the system from the inside out, to the outside in. It's about us putting on our armor and staying ready so we don't have to get ready for war. Peace – By: Empower God Allah

"On a broader scale, the color of our black skin is a threat. This makes me a political prisoner, this makes you a political prisoner, this makes all of us political prisoners. Today we're facing a prison industrial complex that exploits the suffering of our loved ones by selling them overpriced products, and poor health care and forcing them to live in less than humane conditions."

– Imani Culture-Freedom DeVyne Earth

PRICIPLES: Unity ~ Self Sacrifice ~ Political Education ~ Spiritual Renewal ~ Physical Fitness ~ Resistance

Just Move Universal Outreach

Consolidates post incarceration initiatives comprehensively, in a manner consistent with success. We believe genuine transitional services MUST include these 3 areas:

- Necessities of life which consists of food, clothing, shelter, education, employment and healthcare.
- Prison and social reform
- Security to at-risk women and their children.

Cashapp:
\$justmoveuniversal
E: justmoveuniversal@gmail.com

Upcoming Events

- **Throughout the Summer:** Just Move Universal Outreach will be accepting school supplies, canned goods and drinks for the weekly feeding and building of SCDJJ participants and other special programs. Sponsorship packages are available.
- **Sunday, August 18th:** Earth's Cipher on Zoom at 2PM (see website for more info)
- **Saturday, October 12th:** Family Day, New Vision Center in Orangeburg **TENTATIVE DATE...MORE DETAILS COMING SOON**

Ongoing Initiatives

- **Fresh fruit Initiative:** donate fresh fruits for the babies to take home at each event.
- **Read with the babies:** encouraging the babies to read and write.
- **Walk/Run Initiative:** Get up and move by yourself or with a partner.
