Reaffirmation and Political Discourse in Savior Cee

How our reaffirmation is being actualized in political discourse and activism. Whether one is incarcerated or not, it is imperative to adopt a mindset of positive growth. Reaffirmation in South Carolina is vital to safeguarding our culture, practices, art forms, and historical approach in this state. Furthermore, it could address the challenges and opportunities associated with using reaffirmation to preserve and promote growth. We are writing our narrative and not allowing anyone to foster negative imagery and connotations.

As a dedicated member of our nation and community, we must reassert our unwavering commitment to fulfilling our responsibilities. This entails placing a strong emphasis on advancing our interests and fostering growth and prosperity. We recognize the importance of taking proactive measures and acknowledge that waiting for a consensus among the masses is not necessary. A cohesive effort from a small group of devoted individuals can be instrumental in rallying for a shared goal. Again, we are not looking for permission, it's being done. We are moving forward in oneness and peace.

From the Interior Cipher in Savior Cee

For over two decades within the interior cipher of Savior Cee, Allah's 5% Nation of Gods and Earths (NGE) has been defined as a gang and designated a Security Threat Group (STG); and for two decades True and Living Gods within the interior cipher of Savior Cee have righteously stood firm in the face of this persecution, even if it meant being confined to a solitary confinement cell under indefinite terms for 23-24 hours a day for refusing to renounce the NGE as an STG/gang. For God to submit to a falsehood as truth, is to make that falsehood truth. For over two decades True and Living Gods in the interior cipher of Savior Cee have shown and proven that Allah's 5% is not an STG or gang, b.u.t. is a divine Culture which when daily lived out in a righteous and civilized way, places God and the divine attributes thereof in the center of ones daily life. We have written our own narrative through our ways and actions, proving that when we do this, every thought, word, action and deed is done with righteous and civilized intent and results regardless to whom or what. We have shown and proven that even if God finds himself in the hells of incarceration, he still has a duty and responsibility to live the divine characteristics thereof. For years, months and days True and Living Gods in the interior cipher of Savior Cee have used our words, sound and power to ensure that the truth of the NGE, Allah's 5%, is not lost in the clouds of deception which seeks to engulf us into a world of illusion, delusion and devilishment. We filed civil action lawsuits in Federal Court challenging this injustice and persecution, and after years of litigation the God, Lumumba Kenyatta Incumaa (aka Understanding Self Allah) finally got a trial before the Federal Judge on May 13, 2024, to answer the question: is the NGE for incarcerated individuals in Savior Cee protected by the First Amendment to the U.S. Constitution and the Federal Governmental Act, the Religious Land Use and Institutionalized Persons Act (RLUIPA)?...

It can be absolutely stated that the God, Understanding Self Allah showed and proved on behalf of all citizens of the NGE, Allah's 5%, inside and outside the interior cipher, that the NGE is a divine culture, and despite the fact that we do not define the Nation using the word religion, the Culture of I-God that is the NGE holds the same place of importance and significance in our daily existence as Judaism does for Jews, Catholicism does for Catholics, Christianity does for Christians, the religion of Islam does for Muslims, etc..and as such the rights of Gods in the interior cipher of Savior Cee to daily acknowledge and freely live the God Centered Culture that is the Nation of Gods and Earths is also protected by the First Amendment to the U.S. Constitution and the RLUIPA, not as a gang/ STG, b.u.t. as a way of life. A divine path of salvation.

We are waiting on the decision of the Federal Judge to be issued as to whether or not the God was victorious in his manifestation (presentation) of his case. At the end of the trial, it is interesting to note that SCDC's witness, who was Chief of Pastoral Services, stated twice that the NGE is a faith which he recognize as being so. Thus, any question otherwise posed by SCDC, was answered and settled by its own witness. Who by the way, wrote SCDC's Policy on the practice of inmate faiths in the SCDC. If this is any indication as to whether or not the God was successive in his undertakings, the God was victorious, and soon the Gods within the interior cipher of Savior Cee will be recognized as having First Amendment and RLUIPA protections to freely exist and be exercised within the SCDC. **Question now becomes, where do we go from here, and how will the Gods and Earths outside the interior cipher aid and assist us in nourishing this victory, and advancing the existence of Allah's 5%, within the interior cipher of Savior Cee? Peace!!!**
