REFINING TRUTH SO
ALL MAY KNOW.

QUEEN I-WISDOM UNDERSTANDING EARTH

Earth, original in her nature. Black, brown, yellow and red. The essence of the blackness of the universe molded and shaped into a vessel of divine creation. The Earth is the beginning of time, for she is the portal through which all life, mentally and physically, comes into an existence of length, width and/or depth.

The Importance of the Earth in the NGE can never be overstated or exaggerated. God is knowledge and the cream, b.u.t. knowledge cannot become understanding without wisdom; and the original man (God) cannot reproduce himself as original without the original woman. The Earth. She is not secondary, but she is most necessary. The Earth is equality (6) because she is God's balance in the divine scale of LIFE (Living Infinitely Forever Elevating), but equality (6) is not the Earth's limitation. If knowledge (God) needs wisdom (Earth) to make manifest understanding (child), and knowledge (God) is infinite, does it then not make common sense that where God (knowledge) goes his Earth (wisdom) must also go? If God leaves (limits) his Earth at equality (6), then he has limited his understanding (the best part) to equality (6) also.

In this day and time there is an ongoing campaign to put the colored woman and her negro counterpart in the forefront of our thinking as the standard of female beauty and morality. Straight hair of any color, blue or green eyes, bleached or pale skin, naked or half naked, and the identification of oneself as a bitch and/or chauvinistic feminist are more and more being propagated as the standards as to how an original woman must look, act and live. This is not who and what the Earth is, and it most definitely does not weigh in her importance in the NGE.

The NGE is a righteous and civilized culture which places God at the center of our being, daily life and thinking. The Earth is the substance which bonds this center together into a divine mass of I Self Lord And Master (ISLAM). We must never allow her to be degraded or downgraded into a colored woman or her negro counterpart. Keep the Earth in her rightful (righteous) state of importance within the NGE. God's balance, and where God infinitely elevates, Earth elevates. Peace!

“Her Dimensions, His Design: The Original Woman”

Peace. To consider the Black woman is to recognize her profound significance. She is the complementary generative force of God, the wellspring of life, setting the very standards from which civilizations arise, embodying the foundational strength of a mother of civilization. Her essence, a fusion of deep knowledge, wisdom, resilience, and limitless possibility, reveals her as a living manifestation of God, The Original Asiatic Blackman. In her, we see not only the echoes of history but the promise of the future, a testament also that she is both the co-creator and the supporter and nurturer of life itself.

The divine precision observed in the creation of the Original Woman is mirrored in the grand design of Earth. The Earth's precise measurements, its circumference of approximately 25,000 miles, a diameter of 7,926 miles, and a weight of six sextillion tons, speak of meticulous craftsmanship. Just as the Earth is a harmonious blend of form and function, so too is the Original Woman. This cosmic scale demonstrates a meticulousness that, like her creation, reveals the knowledge, wisdom, understanding, love, and equality inherent in the divine plan. This level of detail and accuracy suggests a purposeful and deliberate act of creation, echoing the intricate biological systems within the human form.

Just as the Earth operates under the same natural laws that govern the stars and the smallest atoms, the Original Woman embodies a universal principle of balance and harmony. The patterns that emerge in nature are mathematical precision, symmetry, and cyclical processes that reinforce the essence of a unified creative force that operates across vastly different scales, reflecting the interconnectedness of existence.

Understanding her involves recognizing a complex set of characteristics: a capacity for both significant strength and nurturing care. Her strength is not solely physical; it is a deep-rooted resilience that withstands adversity and rises against oppression. Meanwhile, her nurturing spirit brings forth life, hope, and healing in the hearts of those around her. This balance is demonstrated by her ability to exhibit both decisive action and delicate precision, a trait that allows her to navigate the complexities of life with grace. Her value is immeasurable; it is assessed through the breadth of her emotional intelligence, the depth of her cognitive abilities, and the comprehensive nature of her actions and influence.

She embodies the essence of empathy, understanding, and wisdom that serves as a guiding light in communities and societies at large. In her, we find the threads that connect generations, the ancestral wisdom that informs our path forward, and the strength that fuels the relentless pursuit of justice and equality.

To truly honor the Black woman is to engage deeply with her story, to recognize the layers of history and struggle that she carries, and to celebrate the beauty and richness of her existence. Her narrative is not merely personal; it is interwoven with global histories and future aspirations, making her an invaluable cornerstone upon which societies can be built. Peace.

Savior Cee Earth's Cipher: Sisterhood and Growth

To the sisters who struggle to find their voice, their purpose, and their divinity, know that you are not alone. Within our Savior Cee Earth Cipher, we hold space for you, a sanctuary where wisdom is shared, confidence is restored, and the understanding of self is deepened. This Cipher is not just a gathering, it is a lifeline, a circle where we uplift one another, refine our knowledge, and stand as reflections of each other's strength. For those who may question the necessity of the Cipher, understand this: isolation breeds doubt, but unity cultivates power. The Cipher is where we sharpen our minds, where our voices are heard, and where the jewels of our nation are passed down. It is in this space that we unlearn falsehoods and embrace our true selves without fear or hesitation. No Earth should walk her path alone when she has a nation of sisters ready to support, guide, and build with her. The Cipher is not just important—it is essential, for it is within this sacred bond that we remind each other of who we truly are: divine, purposeful, and necessary. Peace.

DID YOU KNOW?

SPRING EQUINOX

The first day of each solar year begins on the first day of Spring (the Vernal Equinox). This was as the original people taught and understood it to be, before it was misconstrued by the Europeans with their Julian and Gregorian calendars. Today Spring (Vernal Equinox) is said to fall on the 21st of March in the Gregorian calendar. The ancients through their study of nature and the universe, saw that the planet Earth goes through four (4) stages of life under the power and influence of the sun. These four (4) stages (seasonal changes) are today called spring, summer, fall and winter. The ancients saw the first day of each new cycle (year) of these four (4) stages as being the day when the sun rest directly on the Earth's equator in the East, making day and night of equal length everywhere on Earth. When the sun begins its journey across the Earth's equator in the East from this point in time, the Sun's energy in its rays renews life on Earth to begin a new seasonal cycle. Minerals, plants and humans all feel the urge to renew, reproduce and clean their life so that they are prepared to begin a new seasonal (yearly) cycle rejuvenated. Hence, the true origin and meaning of Spring Cleaning during the month of March.

Understanding's Legal Corner

Continuing to build on the 14th Amendment to the United States Constitution from the previous edition.

Changing the 14th Amendment could have major consequences for Black people in America, as it is one of the most critical legal protections for civil rights. Here's how changes could impact Black communities:

1. Citizenship Rights (Birthright Citizenship at Risk)

The 14th Amendment guarantees citizenship to anyone born in the U.S., regardless of race or ancestry.

Changes could lead to denying citizenship to children of certain groups, which could disproportionately impact Black immigrants and their descendants.

2. Equal Protection Clause (Civil Rights in Jeopardy)

The Equal Protection Clause ensures that laws apply equally to all citizens.

Weakening this clause could allow racial discrimination in schools, housing, jobs, and policing to go unchallenged.

3. Due Process (Legal Protections Weakened)

The Due Process Clause protects people from unfair government actions, such as wrongful convictions, police brutality, and unjust laws.

If altered, it could limit rights to fair trials, appeals, and protection from discrimination in the justice system.

4. Voting Rights & Representation (More Barriers to Political Power)

The 14th Amendment plays a role in ensuring fair voting rights and representation.

Changes could lead to increased voter suppression or laws that make it harder for Black communities to have political influence.

5. Affirmative Action & Anti-Discrimination Laws at Risk

Many civil rights laws are based on the 14th Amendment, including desegregation, affirmative action, and fair employment practices.

Weakening it could give states more power to roll back these protections.

Final Thought:

The 14th Amendment was a direct result of Black people's fight for freedom after slavery. Any change to it could open the door to policies that disproportionately harm Black people. Keeping it intact is critical to preserving equal rights and protections.

BREAKING NEWS: VICTORY B.U.T. THE STRUGGLE CONTINUE

In conjunction with the National Office of Cultural Management at Allah School in Mecca, Understanding Self Allah and the Gods and Earths in Savior Cee are advising SCDC officials with the drafting of a policy for recognizing and accommodating NGE cultural practices. Officials report that the process is underway. Once completed, the policy will be shared with institutions, allowing us to hold classes, parliaments, and honor days. We're making progress with support from the best knowers who have successfully completed this process in other states. We will keep you updated. Peace!

Help Reform South Carolina's Parole System: We're advocating for vital reforms to improve the South Carolina Pardon and Parole Board. The current system lacks the necessary mental health expertise, impacting the rehabilitation of inmates and community safety. Please support our petition to:

- Include licensed mental health professionals on the board.
- Create Interim Parole Boards for better case management.

Your voice matters! Sign the petition and help us promote a just and compassionate parole process. Visit <https://chnng.it/Z9n5M5Pxby>

Just Move Universal Outreach

Consolidates post incarceration initiatives comprehensively, in a manner consistent with success. We believe genuine transitional services MUST include these 3 areas:

- Necessities of life which consists of food, clothing, shelter, education, employment and healthcare.
- Prison and social reform.
- Security to at-risk women and their children.

Throughout the Year: Just Move Universal Outreach will be accepting school supplies, canned goods and drinks for the weekly feeding and building of SCDJJ participants and other special programs. Sponsorship packages are available.
